

BIOCERTIFICATION
CERTIFIED BIOMETRICS SECURITY PROFESSIONAL INSTITUTE

Certified Biometrics Security Professional Institute Certification Programs

Certified Biometrics Security Professional Institute (Biocertification.com)

The Biocertification.com offers vendor neutral Biometrics security benchmark certification programs in the IT industry, leading the direction that other certification programs follow. The most successful programs launched by

Biocertification in the recent history are:

[Certified Biometrics Security Technician \(CBST\)](#)

[Certified Biometrics Security Professional \(CBSP\)](#)

[Certified Biometrics Security Engineer \(CBSE\)](#)

[Certified Biometrics Security Developer \(CBSD\)](#)

Biocertification goal is to lead the industry by including courses based on clear skill sets identified as valuable by Biometrics Security Experts & IT Security managers. The Biocertification curriculum is streamlined and simplified, focusing on the skill sets most needed by employers. Biocertification is creating new standards in testing to cut down on paper certified professionals and focuses on hands-on training programs.

CBSP/CBSE Program Details & Program Agenda:

Topics Covered

- ✦ Introduction to Biometrics
- ✦ Biometric System Concepts
- ✦ Analysis of Biometric Systems
- ✦ Fingerprint Recognition
- ✦ Automated Fingerprint Identification System (AFIS)
- ✦ Face Recognition
- ✦ IRIS Recognition
- ✦ Hand Geometry Recognition
- ✦ Vein Pattern Recognition
- ✦ Speaker/Voice Recognition
- ✦ Dynamic Signature Verification
- ✦ Other Modalities
 - Key Stroke
 - DNA
 - Retina
 - Palm Print, etc.
- ✦ Multi-Biometric Systems
- ✦ Biometric Standards
